Following publication of the original article [1], it came to the journal's attention that references 7, 8, 11, and 39 had been erroneously replaced by the following text: "Elsevier has created a COVID-19 resource centre with free information in English and Mandarin on the novel coronavirus COVID-19. The COVID-19 resource centre

is hosted on Elsevier Connect, the company's public news and information". The references have since been corrected in the published article.
