Correction: An empirical investigation of the associations between metacognition, mindfulness experiential avoidance, depression, and anxiety

Torstein Ådnøy¹, Stian Solem¹, Roger Hagen^{1,2,3} and Audun Havnen^{1,4*}

BMC Psychology (2023) 11:281

<https://doi.org/10.1186/s40359-023-01336-7>

Following publication of the original article [1], the authors flagged the following error in the Results section of the Abstract: where it now says ‘Metacognition, experiential avoidance, and the non-judging subscale of FFMQ-24 constituted; ‘Mindfulness’ had erroneously been written in place of ‘Metacognition.’ The published article has since been corrected. The authors thank you for reading this erratum and apologize for any inconvenience caused.
